The Demon	5	48"		
Invertigo	5	54"	78"	
Berserker	3	44"		less than 48"

\*See ride for additional restrictions.

To better assist you in choosing attractions you wish to experience, each of our rides has been rated according to the following system. Ratings are based on the intensity, speed and directional changes of each individual ride. The attraction's rating can be found on the Rider Safety Guide sign at the entrance of each ride. Please be aware of the recommendations and restrictions for any attraction you choose to ride.

### Ride Rating System Definitions

Please be aware of the recommendations and requirements for each ride.

- 1 Low Thrill Ride** – Rides that are generally calm and gentle in nature or a shallow water attraction.
- 2 Mild Thrill Ride** – Rides that generally have low speeds with gentle motion and braking. Rides have smooth transitions with some changes in elevation and speed. The attraction may have water depth to 48" and require rider control, maneuvering and/or swimming skills.
- 3 Moderate Thrill Ride** – Rides that generally have low to medium speeds and/or heights with moderate motion and braking. Riders may encounter unexpected changes in direction and/or speed during portions of the ride. Height and water depth may vary. Moderate or unexpected forces can be generated during the ride. This attraction may require rider control and/or strong swimming skills.
- 4 High Thrill Ride** – Rides that generally have medium to high speeds and/or heights with moderate to rapid braking. Riders may encounter unexpected changes in speed, direction and/or elevation. Riders may encounter strong water currents and/or deep water, some of which is unexpected. Rider body control and strong swimming skills may be required.
- 5 Aggressive Thrill Ride** – Rides that generally have one or more of the following: high speeds and/or heights, aggressive and unexpected forces, and rapid directional or elevation changes. Riders will encounter many unexpected, rapid changes in speed, direction and/or elevation. The attraction may have deep water with turbulent turns, drops, and/or strong water currents. This attraction may require rider body control and strong swimming skills.

**WARNING!** For safety, you should be in good health and without recent surgery or illness and free from high blood pressure or any condition or limitation of the heart, back, neck or bones that may be aggravated by most park attractions. Expectant mothers should not ride. Please see the Rider Safety Guide signs at the entrance of each ride for specific health and safety guidelines.

**Responsible Person** – Many of our rides have height requirements that allow a guest under that requirement to ride with a responsible person. A responsible person is someone who meets all the requirements to ride themselves, is 16 years of age or older, and demonstrates appropriate observed behavior. Responsible Person **must** be 18 years of age at Great Barrier Reef.
